Bukidnon State University · 2018

GIPRE NAPARAN

TECHNICAL ASSISTANT // GOHIGHLEVEL & AUTOMATION SPECIALIST

Tech-savvy · Proactive · Resourceful

01 PROFILE

Tech-savvy, proactive and resourceful IT professional with 5+ years in automation, full-stack development and information security. I build and support GoHighLevel workflows, pipelines and integrations, and develop production web systems with React, TypeScript, Next.js and MySQL. I test before going live, add error-catching to automations, and use AI tools like ChatGPT and Claude daily to work faster and more accurately.

02 CORE SKILLS

- GHL workflows & automations
- Pipelines, forms & CRM data
- Automation QA & error alerts
- SOP-based recommendations
- API & webhook integrations
- Full-stack web development
- InfoSec & access control
- Client technical support

03 EXPERIENCE

Automation Specialist — CURRENT

The MSP Marketing

- Build and maintain GoHighLevel workflows, pipelines, forms and funnels for MSP clients
- Create automations and integrations with n8n, Zapier, Power Automate and ConnectWise
- Set up AI-powered chat and sales automations inside GoHighLevel
- Test automations before launch and add error alerts to catch broken processes early
- Manage and prioritise client tasks in ClickUp and Monday.com

IT Supervisor – Software Development and Information Security — 2022 – PRESENT

BUGEMCO · Bukidnon Government Multi-Purpose Cooperative

- Lead full-stack development of internal systems using React, TypeScript, Next.js, Express and MySQL
- Sole developer of a production school management system covering admissions, grading, finance and a parent portal
- Implement role-based access, audit logs and security hardening; run cybersecurity training and phishing simulations
- Propose and deploy automation solutions across departments

Multimedia Officer — 2020 – 2022

BUGEMCO

- Produced design, video and live-stream content; led digitalisation programs; promoted to IT Supervisor
